Program Description

Learn how the science of managing food and nutrition helps promote good health. Dietetic technicians typically work as a member of the food service or healthcare team. MATC's program includes supervised clinical and field experiences. Graduates are eligible for technician membership in the Academy of Nutrition and Dietetics and will receive the title Nutrition and Dietetic Technician Registered (NDTR) after successfully completing the national registration exam.

Career Outlook

Dietetics is a vital, growing field. A dietetic technician typically works as a member of the food service or healthcare team.

Program Learning Outcomes

- Integrate scientific information and translate research into practice.
- Practice beliefs, values, attitudes and behaviors for the professional nutrition and dietetics technician level of practice.
- Develop information, products and services for individuals, groups and populations.
- Deliver information, products and services to individuals, groups and populations.
