**CREDITS**  
 Total credits needed to complete this diploma **29**

‡ Prerequisite required.  
 Program curriculum requirements are subject to change.  
**Current MATC students should consult their Academic Program Plan for specific curriculum requirements.**

## Program Description

Gain the knowledge and skills needed to manufacture dental restorations, including metal and ceramic crowns and bridges, and complete dentures. The curriculum also includes dental terminology, dental anatomy, occlusion and computer-aided design (CAD) processes. Students will acquire skills through hands-on experience in MATC's well-equipped dental laboratory.

## Career Outlook

An increasing demand for aesthetic dentistry, the aging population and an aging workforce contribute to employment opportunities.

## Program Learning Outcomes

- Relate concepts of oral anatomy, morphology and occlusion to dental laboratory procedures.
- Perform laboratory techniques and procedures for dentures.
- Assume the role of the dental laboratory technician as a member of the dental healthcare team.
- Observe infection control and environmental safety procedures.
